message from **the chairman**

I'm excited to share with you that we are now entering into a new phase of our growth. Para Group has made significant progress since its incorporation 20 years ago and that provides us with a strong foundation to realize even more ambitious growth plans. In this next phase, we want to explore alternative growth paths through brand development, alliances and acquisitions and by entering into new industries such as energy, mining and infrastructure, and new sectors such as lifestyle and entertainment, to become a leading player in the region in our chosen businesses. We look to grow while continuing to defend our core values of integrity, good corporate governance, customer focus and team effort.

The key challenge for us is to attract and retain the best talent and to integrate it into a high performance culture with an increased focus on leadership, innovation, profitable growth and realization of synergies across our businesses.

Finally, I would like to thank all of our customers, suppliers, investors and employees for your significant commitment that has enabled us to achieve our extraordinary success to date. I would like to reassure that although in this next phase we will explore alternative strategies and sectors for growth, our core business philosophy will always be to create maximum value for all our stakeholders.
